SCIENCE

Bring science alive using ActivInspire! Create interactive and fun science activities to engage your students and enhance their learning. Learn valuable ideas that you can implement into your classroom programme. The course will include:

- Ideas for introducing topics
- Utilising text straight from the internet
- Exploring free Science resources
- Creating exciting Science activities with ease
- Using Videos to enhance lessons
- Labels for self-checking
- Adding Restrictors and Blockers
- Container activities

MATHS

ActivInspire makes the teaching and learning of maths easy. Not only is there a full range of maths tools from rulers to protractors, but there is a wealth of maths resources ready and waiting for you. The course includes:

- Interactive Starters
- Utilising the Math Tools in Inspire
- Customising grids
- Creating engaging activities quickly
- Magic reveals/boxes to 'wow' students
- Containers for self-checking
- Adding simple actions
- Fantastic free maths resources

LITERACY

Latch onto literacy learning where the only limitation is your imagination. Become even more skilled at creating interactive activities and learn how your students can fully utilise the ActivBoard as a tool for literacy learning. The course includes:

- Interactive Literacy Starters
- Personalising learning and differentiation
- Digital story telling using the screen recorder.
Great for e-portfolios!
- Collaborative literacy activities
- Containers for self-checking
- Saving resources in My Resources
- Enhancing Literacy with Media
- Graphic Organisers and Literacy Resource packs
