

Professional Development - Term 4 2010 and Term 1 2011

We believe that when introducing the ActivBoard teachers require sustained professional development over time. This training should include fusing technology with pedagogy to ensure that teachers are equipped with the resources and technical ability, as well as being able to use the new technology to better enhance learning outcomes.

ACTIVboardNZ offers a range of practical, interactive training and professional development options with the aim of allowing New Zealand teachers to maximise the benefits of the ActivInspire software within a classroom environment.

Workshops and Courses

Centre-based Training

Introduction to Inspire (Level 1 – Part A) \$175pp

Just got your ActivBoard and are new to ActivInspire? Then this one day group introductory workshop is just for you! Content includes: using the toolbox and the basic tools, working with text, saving and opening flipcharts, finding and using resources, and applying simple presentation tools. We'll also explore the wonders of Promethean Planet and show you where to go to for help. By the end of this session you'll be able to use some of the basic interactive elements of your ActivBoard.

SUITABLE FOR: PARTICIPANTS WHO ARE NEW TO ACTIVBOARDS OR NEW TO INSPIRE

Introduction to Inspire (Level 1 – Part B) \$175pp

Ready for the next step on your ActivBoard journey? Come and join us on this one day group workshop. Content includes: updating software, personalizing your toolbox, exploring more tools to use in your classroom, learning time savers, adding your own sound recordings, manipulating images and text, and navigating

quickly and easily through your flipchart. We'll have a more in depth look at Promethean Planet – giving you tips for searching and downloading flipcharts. On completion of this course, you'll be able to create interactive activities quickly and easily ultimately saving you time!

Try out our new Spotlight Sessions

Spotlight Session

(Level 1 – Intermediate) \$175pp

Develop your ActivBoard skills further in these specially designed sessions for Maths, Literacy or Media.

PARTICIPANTS MUST HAVE COMPLETED *INTRODUCTION TO INSPIRE – PART B*.

Maths

ActivInspire makes the teaching and learning of maths easy. Not only is there a full range of maths tools from rulers to protractors, but there is a wealth of maths resources ready and waiting for you. Content includes: using the maths tools, exploring the maths resources and save them so that they can be found again quickly, designing grids, understanding and using layers, learning the basics about containers. All participants will receive a digital maths resource pack when they attend this session.

Literacy

Latch onto literacy learning where your only limitation is your imagination. Become even more skilled at creating interactive activities and how your students can fully utilize the ActivBoard as a tool for literacy learning. Content includes: personalizing learning using the camera tool and sound recorder, wowing students with magic ink for self checking,

exploring ideas for differentiation, saving resources in places you'll find them again later, locking objects and using layers, as well introduction to containers and presentation tools. Participants will receive a digital literacy resource pack when they attend this session.

Media

Using media from a variety of sources has never been easier with ActivInspire! Imagine video at your fingertips, having links to the internet on hand for ease of use or supporting students when stating their source of information. This course will show you the quick ways of using text, images and video that you have taken or from the internet as well as creative and helpful ways of using the screen recorder. Explore ways in which to use sound, images and screen recorder for assessment or e-portfolios. Participants will receive a digital media resource pack when they attend this session.

Level 2: Curriculum Developer \$475pp

Take your skills and knowledge to the next level! This 2 day course will focus on how to use ActivInspire tools and resources in fun, creative and interactive ways in your lessons. On the first day we will look at advanced techniques

including: utilising actions and restrictors, creating resource packs, embedding media, customization and software shortcuts. We'll also look at design, differentiation and how to enhance your flipcharts to promote higher order thinking. On the second day the focus will be on pedagogy ideas for implementing effective ActivBoard practice in your school. This course leads on to the award of a Level 2 Curriculum Developer Certificate.

SUITABLE FOR: PARTICIPANTS WHO HAVE COMPLETED A *SPOTLIGHT SESSION* AT LEAST 6 WEEKS EARLIER.

Onsite Training

Please contact us if you would like training at your school which can be tailored to suit your school needs. Perfect for teacher only days!
