ActivBoard 500 Pro

NATURAL LEARNING...

The ActivBoard 500 Pro raises the standard for interactive display systems with its intuitive pen + touch capability. It promotes a natural way of interacting with technology modelled on real world behaviour and gestures. It can accommodate multiple users collaborating on a single task.

TOUCHPAD

TouchPad is a vertical, endless notepad with inbuilt search and 'bookmark' capability.

- ▲ A great tool to make simple notes, collate ideas or for model learning
- ▲ Build up notes over time that can be easily retrieved.

NOTEBOARD

Stimulate collaboration and discussion with the Noteboard's interactive 'Post-It' notes.

- ▲ Invite students to text in related words using ActivExpression or ActivEngage
- ▲ Illustrate relationships between ideas
- ▲ Save, retrieve and print

ActivEngage Mobile

ActivEngage Mobile is ideally suited for schools that have invested in one-to-one mobile initiatives or support Bring Your Own Device (BYOD) initiatives enabling students to interact and respond to questions from their laptops, desktops or handheld devices.

It gives teachers real-time insight into student comprehension and allows them to teach "in the moment". Student responses are analysed in real-time and progress can be viewed immediately. ActivEngage Mobile integrates with all Promethean software and may be used concurrently with Promethean's existing learner response devices, including ActivExpression.

ActivEngage Mobile will be available for download from the Apple App Store and Android Market. Call us for more information.
